

## **Ontario Soybean and Canola Committee**

### **Ontario Soybean Variety Trials Tour Guide 2024**

#### **MG00E (2200) - New Liskeard**

Ontario Crops Research Centre - New Liskeard. From Highway 11, turn onto Highway 65 East. Follow Highway 65, making the left at the lights towards Quebec. The entrance to the field is on the right at 883280 Highway 65 East, with the research centre itself. The trial will have signage at the time of the tours.  
GPS: 47.519041, -79.668562

#### **MG00 (2400) - Dundalk**

Take Hwy 89 east towards Shelburne, turn left at Dufferin Rd 17, then turn left on Line 7. Follow Line 7 to Riverview. At the intersection in Riverview, turn right on 260 sideroad. Plot is on the right. Signs will be posted at road.  
GPS: 44.1038584°, -80.3660202°

#### **MG00 (2400) - Belwood**

From the town of Arthur follow Hwy 109 (Hwy 9) east to Side Rd 13. Turn left onto Side Rd 13. Plot is just over a concession down the road on the left. Signs will be posted at the road.  
GPS: 43.8780979°, -80.4501343°

#### **MG00 (2400) & MG0 (2600) - Elora**

ELORA RESEARCH STATION  
#6182 Second Line East, R.R. # 2  
ARISS, ON

GPS at station entrance: 43.642019, -80.403829  
GPS at plot location: 43.636134, -80.406403

From the entrance to the station, stay on the main laneway and proceed past the main cluster of operational buildings, then past the old stone house, and finally past the old train track that is now a trail. Just past the train track trail you will see a set of small fields to the left – go past these and turn left onto the grass laneway that is located after them. You will see a treeline about 300 m away. The OSVT is located to the left of this treeline as you head towards it (or North). The MG0 Roundup Ready Trial is located in the first corner as you enter the field. The MG00 Roundup Ready Trial is stacked on top of this. The MG0 Conventional Trial spans the entire length of the field beside the Roundup trials. The MG00 Conventional Trial then starts beside the MG0 Conventional Trial, but only spans the front half of the field.

## **MG0 (2600) - Walton**

From Exeter take Hwy 4 north to Kippen Rd. Follow Kippen Rd. through Seaforth to Blyth Rd. Turn left onto Blyth Rd, then turn right on to Brussels Line. Take first left onto Walton Rd. Plot is after first farm on the left. It will be signed at the road.

GPS : 43.6847566°, -81.3083661°

## **MG0 (2600) - Port Hope**

From the 401, take exit 456, Wesleyville/Morrish Church Road and head north on Morrish Church Road. Turn right onto County Rd 2. Plot is just over 2 km down the road on the lefthand side. Signs will be posted at the road. The location is also a DLF Pickseed testing farm. Follow the lane back to the last red shed on the right. Plot is behind the red shed on the right.

GPS: 43.9710749°, -78.3654785°

## **MG0 (2600) - Ottawa**

Conventional 45.37102 N -75.72908 W

From the Corner of Fisher Avenue and McCooley Lane:

- Head West on McCooley Lane to the top of the hill, trial will be on your right.
- If you come to the locked gate you've gone too far.

Roundup Ready 45.38383 N -75.71756 W

From the Corner of Fisher Avenue and McCooley Lane

- Head East on McCooley Lane
- At the top of the hill turn left on Ash Lane, heading North, trial will be on your left.
- If you come to NCC Driveway you've gone too far

## **MG0 (2600) - Winchester**

12088 Baker Road, Winchester

If coming from the 401:

- Take exit 750 for County Road 31 toward Morrisburg/Winchester
- Turn left (N) onto Route 31 (signs for County Road 31/Winchester/Ottawa)
- Turn left (W) onto Baker Rd. Research Station building will be on the left.

If coming from 416:

- Take Exit 34 to Kemptville from 416.
- Turn left (E) onto County Rd 43 (signs for County Road 43)
- Turn right (S) onto Route 31/County Rd 43 E (signs for County Road 31/Morrisburg/Chesterville)
- Turn right (W) onto Baker Rd. Research Station building will be on the left.

The OSACC Trials will be in the research station ranges on the north side of the road, east of Hardy Seeds Limited (12071 Baker Road) and the research station buildings (12088 Baker Road).

Using the station's north field entrance, turn right. Please follow signs and grass pathways to the far northeast corner of the research station plots. Signs will be posted.

GPS Coordinates:

Field Entrance: 45.057536°N, 75.337693°W

Conventional Soybean plots: 45.061797°N, - 75.339739°W (approximately)

Roundup Ready Soybean plots: 45.062562°N, -75.340355°W (approximately)

## **MG1 (2800) - Woodstock**

WOODSTOCK RESEARCH STATION

515216 11th Line

WOODSTOCK, ON

GPS at station entrance: 43.144305, -80.786039

GPS at plot location: 43.142926, -80.795859

Please note: The entrance to the Woodstock Research Station is gated. The gate should be open most days during station hours (9:00 am to 3:00 pm; Monday to Friday).

Take the gravel laneway directly across from the station entrance. Follow the laneway approximately 2 km through a series of bends. The trials are located to the left of the laneway, just past a small row of trees. The MG1 Roundup Ready Trial is the first trial as you enter the field and spans the length of the field. The MG1 Conventional Trial is located beside this to the west and spans the length of the field.

## **MG1 (2800) - Exeter**

HURON RESEARCH STATION

70257 Airport Line

EXETER, ON

GPS at station entrance: 43.316208, -81.500126

GPS at plot location: 43.3146415, -81.5089842

Go past the research station buildings along the gravel laneway. Trials are in the 13th Range from the front of the farm on south side (S13). Follow the signs from the middle laneway of Research Station.

## **MG1 (2800) - St. Marys**

Farm of Mr. Ben Douglas

\*\*\*Address below is for the house directly across from the field entrance, GPS coordinates indicate the exact field entrance\*\*\*

3104 Perth Road 130  
ST PAULS STATION, ON

GPS of field entrance: 43.329771, -81.107132

Enter the laneway that is directly across the road from the address above. The trials are to the left of the laneway. The MG1 Roundup Ready Trial begins in the corner closest to the entrance and spans the entire length of the field. The MG1 Conventional Trial is located to the SE of this and spans the entire length of the field.

## **MG2E (3100) - Palmyra**

42.487727, -81.738346 (Laneway)

42.486960, -81.738377 (Plot 101 RR)

19474 Duart Rd, Duart, Ontario N0L 1H0

Take Exit 117 for County Rd 20/Orford Rd. Turn onto County Rd 20 towards Highgate. Turn Left onto King St N/Chatham-Kent County Rd 20. Turn Left onto Main St E/ Chatham-Kent County Rd 19. Turn Right onto Duart Rd/ Chatham-Kent County Rd 121. Continue on Duart Rd until 19474 Duart Rd. Please park on the grass shoulder and progress over the driveway/culvert and follow the signs.

## **MG2E (3100) - Fingal**

Take 401 to Colonel Talbot (Hwy 4) South Exit. Head South through Talbotville to Sunset Dr. From Sunset Dr. turn right onto Fingal Line. From Fingal Line turn right onto John Wise. Plot is the second farm on the right. Look for signs at the road. Follow the path through the corn and wheat stubble to reach the plot, you will enter from the back. Signs posted along the way.

GPS : 42.7621376°, -81.2644958°

## **MG2E (3100) - Inwood**

42.793852, -81.929992(Field Entrance)

42.794880, -81.931562 (Plot 101 RR)

2816 Little Ireland Rd, Inwood, Ontario N0N 1A0

Take Exit 117 for County Road 20/Orford Rd from the 401. Turn north onto Orford Rd/ Chatham-Kent County Rd 20. Turn right onto Selton Line/County Rd 18. Turn Right onto Chatham-Kent County Rd

2. Turn left onto W Bothwell Rd/Chatham-Kent County Rd 16. Turn left onto Main Line/Chatham-Kent County Rd 16. Turn right onto Tower Rd/Chatham-Kent County Rd 16/County Rd 17. Continue onto Cairo Rd/Lambton County Rd 79 N. Turn left onto Aberfeldy Line. Turn right onto Little Ireland Rd. Turn right onto Bush Line and the field will be on the left side just past the corn. The field can be accessed at the GPS point where a sign is located as well.

### **MG2E (3100) - Ridgetown**

42.454352, -81.881943

120 Main St E, Ridgetown, Ontario N0P 2C0

Come to campus as normal and progress to the plots behind the main drive sheds. Once going over the tracks turn right at the next stop sign. Continue down the lane way until the first left laneway (not the road). Follow the sign to the left and continue until the fourth lane way on the right. Turn right and progress ~ halfway until a sign appears indicating the first Round up plot.

### **MG2L (3400) - Chatham**

42.403066, -82.123603 (Laneway)

42.402525, -82.122764 (Plot 101 RR)

Take Exit 90 for ON-40- Communication Rd toward Chatham. Continue on Communication Rd/ON-40 N toward Chatham. The field is located on the right side just past Maynard Line. A laneway at the tree line can be used to park and gain access to the field.

### **MG2L (3400) - Merlin**

42.257209, -82.190993 (Laneway)

42.258867, -82.190045 (Plot 101 RR)

20863 Drake Rd Merlin Ontario, N0P 1W0

Take exit 90 for ON-40/Communication Rd toward Chatham/Chatham-Kent County Rd 11/Blenheim. Turn onto Communication Rd/ON-40 S towards Blenheim. Turn right onto Cundle Line. Turn left onto Charing Cross Rd/Chatham-Kent County Rd 10. Turn right at the 1st cross street onto Middle Line/Chatham-Kent County Rd 8. Turn left onto Drake Rd. Once arrived continue down the driveway just past the house and make your way left around the house towards the pasture. The plots will then be on your left.

## **MG2L (3400) - Harrow**

The OSV trial is located at Harrow Research and Development Centre (2585 County Road 20, Harrow ON). From the main entrance, drive across the parking lot. Afterwards, turn left at the stop sign. Drive straight. The plots are located at the right-hand side of driveway.

GPS: 42°01'48.0"N 82°54'02.8"W

## **MG2L (3400) - Woodslee**

The OSV trial is located at the Gaughan farm (1636 Lakeshore Rd 217, South Woodslee ON), which is a part of the Honourable Eugene F. Whelan Experimental Farm. Go in the gate at the Gaughan farm and drive straight. The plots are located at the right-hand side of driveway. If the gate is locked, call 519-324-5442 to open the gate.

GPS: 42°12'26.9"N 82°44'27.7"W

Anyone wishing to visit the PRR plots should contact Owen Wally at 519 733-1293 to arrange a visit.
